

Recruitment Announcement for Full-time Researchers

The Experimental Forest, College of Bio-Resources and Agriculture, National Taiwan University

The Experimental Forest, College of Bioresources and Agriculture, National Taiwan University, invites applications for one research position in each of the fields listed below.

- 1. Wildlife and Plant Management (one position):** Expertise in wildlife and plant taxonomy, population monitoring, forest pests and diseases, wildlife damage management, invasive plant control, or related disciplines supporting the Experimental Forest's long-term development plan.
- 2. Forest Ecosystem Services (one position):** Expertise in understory economy, circular economy, forest recreation, forest management, or related disciplines supporting the Experimental Forest's long-term development plan.

Position Type

Full-time research positions (Assistant Research Fellow, Associate Research Fellow, or Research Fellow) to begin on **August 1, 2027**.

Qualifications

Applicants must hold a Ph.D. in a relevant field. Forestry-related research achievements or practical experience are preferred. Applicants must have at least one SCIE or SSCI journal article published on or after August 1, 2022 (including online versions with assigned volume, issue, and page numbers), on which the applicant is the first or corresponding author.

Required Application Documents (all in electronic format)

1. A personal resume including research area, position (i.e., Assistant Research Fellow, Associate Research Fellow, or Research Fellow), address, telephone number and e-mail.
2. Copy of Ph.D. diploma.
3. Publication list and full texts of all publications submitted for review. Publications must have been published after August 1, 2020. One representative publication must: (a) match the research area; (b) be an SCIE/SSCI paper; (c) be published on or after August 1, 2022 with assigned volume/issue/page numbers; (d) list the applicant as first or corresponding author; (e) include a co-author contribution statement if co-authored. (f) Assistant Research Fellow applicants may designate a doctoral dissertation completed on or after August 1, 2022 as the representative publication.
4. A summary of research accomplishments and future research objectives.
5. Official graduate transcript or certification.
6. List of Recusal Personnel for Manuscript Review (official format).
7. Two letters of recommendation.

Submission Details:

Applicants must submit electronic copies of Items 1–6 by email to the Personnel Office at exfopersonel@ntu.edu.tw by October 31, 2026. Two letters of recommendation (Item 7) must be sent directly by the recommenders to the Director's email address at pftseng@ntu.edu.tw.

Duties

Teaching, research, forest land management, forestry operations, and other forestry-related professional duties.

Work Location

Experimental Forest units in Zhushan Township, Lugu Township, Shuili Township, and Xinyi Township, Nantou County, Taiwan.
